Importance: High

Hi; we found a few tweaks that needed to be made (e.g. the date of list revisions, the # of EHS substances, etc). Please delete V4 and use this one. Thanks - Craig

Mathy –

Here is the revised authorities paper which includes a description of EPCRA section 313 and how ammonia and ammonium nitrate are or are not regulated under that section; the paragraph written last night (Bicky; discussion of the requirements and/or our guidance for local communities to include 311/312 information in their plan; and addition of a paragraph on the GDC.

Big thank you to Kim on this one.

Please Let us know if you have any questions and/or comments.
